## **RITESH MAHARJAN**

Full Stack Developer

Chicago, IL | 773-663-3485 | maha.rit108@gmail.com | Github Link | Portfolio Website |

Full stack software developer with experience working both front and back end programming in a collaborative team environment. Proficient in React, JavaScript, Node.js, Express, Mongoose. Authorized to work anywhere in the US.

#### **SKILLS**

React, JavaScript, JQuery, HTML, CSS, Sass, Bootstrap, AJAX, Axiom, Sockets.io, Express, Python, Django, Material UI, Redux MongoDB, Mongoose, Google Firebase, PostgreSQL, Node.js

Git, GitHub, Heroku

Agile, Scrum, MVC framework, Object Oriented Programming, Responsive design, REST API, Authentication, User Stories, ERD, Wireframing, HTML DOM manipulation

## SOFTWARE ENGINEER EXPERIENCE

# Software Engineering Immersive Student General Assembly, Remote

08/2020 - 11/2020

Training program focused on full-stack software development, learning various front-end, back end technologies like React, Node.js, Express, Python, Django, MongoDB, PostgreSQL along with various methodologies and environments with a focus on MERN stack. Developed a portfolio of individual and collaborative projects:

#### An E-Commerce Application- APPAREL

A single page application for Apparel, an e-commerce website with user-friendly UX/UI design.

Product conceptualized, designed responsive Wireframes for Front End and ERD's for API design.

Front end designed and built using React, JavaScript, Axios and Token based Authentication.

Server-side built using Node.js, Express and MongoDB, Mongoose for database management with passport.js as authentication middleware.

## A real time chat application- FarmChat

Lead Front and Back end for the group for this MERN stack project.

Followed Scrum framework for project management

Client-side using React, JavaScript and Axios with Sockets.io for real time,

bi-directional communication between web clients and server.

Server-side RESTful API built using Node.js, Express. MongoDB for Database.

Mongoose used to build Schemas and manage MongoDB.

Used Git for version control.

#### A social media platform- Coffee Talk

Users can post, read, update, delete their articles, add comments and like/dislike comments.

Front-end: JavaScript, JQuery, HTML/CSS with AJAX for API calls and Token based authentication.

Backend/RESTful API built using Express, Node.js, Mongoose, MongoDB and github for version control.

## A single page application for the game of tic-tac-toe

Product design with UX/UI in mind for the users. Wireframing and ERD's developed. Built using JavaScript, JQuery, AJAX, HTML, CSS/Bootstrap

# Site Civil Engineer | PHNA, Kathmandu, Nepal

12/2016 - 06/2018

Managed small and large budget projects in construction sites with 15-150 personnels working under different contractor parties in a fast paced environment, monitoring progress and quality check.

Solved technical problems of contractors and on-site engineers, communicating effectively among them and managed works based on material availability, technical hierarchy and unforeseen issues so that the site runs smoothly and project can be completed under the given time-frame.

Prepare cost-estimates, time-estimates and schedules.

#### **EDUCATION**

General Assembly, Remote Software Engineering Immersive

08/2020 - 11/2020

Himalaya College of Engineering ,Kathmandu, Nepal Bachelors in Engineering- Civil Engineering

05/2012 - 12/2016
